THE GLENELG GOLF CLUB FOUNDATION

Supporting the Development of Junior Golf at Glenelg

GLENELG
GOLF CLUB

What is the Glenelg Golf Club Foundation?

The Glenelg Golf Club Foundation was established in 2002 to facilitate the funding of key projects through donations from members and supporters.

One of the Foundation's key projects involves the ongoing funding of the Club's Junior Development Program. The Foundation believes this is fundamental to the future of the Club and the game of golf.

To date, the Foundation has raised over \$175,000, of which almost \$110,000 has been spent on funding the Club's Junior Development Program.

Activities receiving financial support through the Foundation include:

- junior clinics;
- entry fees & various expenses to compete in local, State & National Junior events;
- various Junior golf trips to country & interstate locations;
- individual & elite level coaching for junior members.

Since 2002, well over 150 current and former junior members of the Club have received some financial assistance or have been involved in some way in Junior Development Program activities.

Glenelg's reputation as a leader in Junior Development has been established thanks to the support of the Foundation and the generous donations given by members and supporters.

Your support of the 2011 Foundation Day will go a long way in allowing the Club to continue to develop its young players to become life-time members and strong contributors to Glenelg Golf Club and the sport of golf.
