

Season 2011

play golf

## Pennant RESULTS

### Round Results will carry the following points:

- (a) A team win will result in the winning team being awarded one (1) match point.
- (b) A draw between two teams (i.e. 2 ½ or 3 ½ game points each) will result in each team being awarded half (0.5) of a match point.
- (c) An individual win or walkover will result in the winning team being awarded one (1) game point.
- (d) An individual match which is square at the 18<sup>th</sup> hole shall be scored as a draw (sq) and each team awarded half (0.5) of a game point.

### Ladders will be calculated in the following manner:

- (a) Teams will be positioned on their respective Ladder by Match Points.
- (b) Game Points will be used to determine the position of teams tied on Match Points.
- (c) If individual Match Points and Games Points are tied, holes are then used to determine the position a team has on the ladder.

### Holes are awarded as follows:

For an individual match all square - nil

For a match ending on the 18<sup>th</sup>, i.e. 1 or 2 up a team gets +1 holes (-1 for the defeated players side)

For a match ending on the 17<sup>th</sup>, i.e. 2/1 or 3/1 a team gets +2 holes (-2 for the defeated side)

For a match ending on the 16<sup>th</sup>, i.e. 3/2 a team gets +3 holes (-3 for the defeated side)

For a match ending on the 13<sup>th</sup>, i.e. 6/5 a team gets +6 holes (-6 for the defeated side)

The concept of rewarding a team for the margin of their defeat of the opposing side was introduced to help decide count back situations whereby teams may be tied on matches and individual games won. However to prevent the situation whereby a player may have already lost the game but needed to finish the hole to determine whether the game was lost say 2/1 or 3/1, it was determined, to maintain the ethics of the game, that for the purpose of determining count backs, that the hole on which the match finished, rather than the match result, would determine what has become known as the "holes". Hence a match finishing on the 18<sup>th</sup> or beyond is awarded 1 hole, a games finishing on the 17<sup>th</sup> is awarded 2 holes etc so a match result of 10/8 is awarded 9 holes, 6/4 is awarded 5 holes.
