#### Golf NSW High Performance Program – October 2013 – September 2014

The Golf NSW High Performance Program is under constant review. The program has been very successful since Golf NSW made the decision to move away from the NSWIS in Homebush, but there is still work to be done to refine the detail and determine exactly what role this program plays in the High Performance Pathway. This program is in its second complete year and the focus has been on fewer athletes, and has resulted in a significantly decreased spend in this area.

The next piece of news which could also have a significant bearing on this program relates to potential new funding opportunities, as a result of golf now being an Olympic Sport.
