

USA COLLEGE GOLF – TRIAL EVENT

Golf NSW extends an invitation to you to attend a FREE upcoming event for its officially supported program NSR Australia and USA College Golf. NSR enters its eighth year as an officially endorsed program across many sports in Australia which they are now proud to bring this opportunity to young golfers here in NSW.

NSR Australia, in conjunction with Golf NSW will be identifying potential USA College Golf prospects that have the ability to play full time golf in the USA. These lucky athletes will have the chance to pursue academic achievement while having the opportunity to play in the extremely professional American College Golf system, potentially on a golf scholarship.

Students do not enter the US College system until they have completed Year 12, so the NSR program is now making a number of places available for student athletes who are currently in high school years 9, 10, 11, 12 & first year Uni/ TAFE/ gap year students. NSR works directly with all US Colleges and Universities in every division in every state. There is sure to be a level for all types of athletes ranging from elite to social level players and from top scholars to those who possess the standard academic level.

There are opportunities available for all levels of golfers from social to avid. Don't think this is aimed at the elite golfer - come and give it a go!

Both events will be held on: **Saturday March 29th 2014**
