

# Slope, Handicapping, Feedback

The introduction of slope has been generally well received. We would like to hear from anyone that is experiencing or hearing otherwise.

- Sand Greens Ratings
- Courses with slope <113
- Problems with software providers
- Access to GA Handicaps

# Sand Greens – Rating Process

- Assume greater green size
- Assume increased roll
- Assume decreased shot length to green
- Difficult (impossible) to cater for players who are bad on grass / good on sand, or vice-versa

# Courses with slope <113

- GA Handicaps are not calculated beyond 45 for women, 36 for men.
- When a player who is on a GA Handicap of 45 plays at Randwick GC, they have a Daily Handicap of 37. 8 strokes less than they were able to play off in 2013 !!!
- We view this as a disincentive and discourages these players. To discuss with Golf Australia.

# 2015 Events Calendar

Tenders for State Finals – Mixed, Men’s, Women’s  
Fourballs

Tenders for Hosting of Semi-Finals and Finals of Metro  
Pennant

Preferred Host Dates – District Tournaments

Preferred Host Dates – District Finals Fourball events

Requests to Clubs to host 2015

# Software Developments

- Pennant Software – intent to make available to DGA's for their Pennant competitions
- Tournament Software – developing own and am interested if there is something we can develop to assist Districts to run their own events eg generating automatic draws, receipt of online entries
