Adjusted gross scores are calculated using the following formula:

Par of the Course + 36 - Stableford Score + Handicap = Adjusted Gross Score. i.e. if a player with a handicap of 6 has 40 points on a par 72 course the adjusted gross score is 74. $72 + 36 - 40 + 6 = 74$

Any wash recorded on the scorecard with the lowest gross score that would result in a wash. i.e. If a player has 1 shot on a par 4 and washes the hole they would be allocated a 7 for that hole. 4 = 3 points, 5 = 2 points, 6 = 1 point, 7 = wash
