

Parents' decisions about sun protection and sugar-sweetened beverages for themselves and their child***Research team contacts***

Principal Researcher:	Miss Katie Leigh	Honours student
Associate Researchers:	Dr Esben Strodl	Principal Supervisor
	Professor Katherine White	Associate Supervisor
	Rachel Kelly	Research Assistant

Faculty of Health, Queensland University of Technology (QUT)***What is the purpose of the research?***

The purpose of this research is to examine the factors that influence parents' decisions regarding sun protection and limiting sugar-sweetened beverages for themselves and for their child.

Are you looking for people like me?

The research team is looking for parents of primary school aged children (Prep to Year 6), who currently reside in Queensland.

What will you ask me to do?

Your participation will involve completing an anonymous online survey that will take 20-25 minutes to complete. If you choose to enter your contact email and participate in the follow up survey, you will receive and email two weeks later inviting you to complete a short 5-10 minute anonymous online survey.

Are there any risks for me in taking part?

There are minimal risks associated with your participation in this project. These include a possibility of mild discomfort with sharing personal information about your health behaviours for yourself and your child.

It should be noted that if you do agree to participate you can withdraw from participation in the project without comment or penalty at any time up to submitting the survey, and you may skip questions that you do not feel comfortable answering.

Are there any benefits for me in taking part?

It is expected that this project will not benefit you directly. However, it may benefit the wider research community by increasing our understanding of health-related behaviours of parents for themselves and their children. This project may provide insights useful for future research.

Will I be compensated for my time?

To recognise your contribution should you choose to participate, the research team is offering the chance to win one of two \$50 Coles Myer vouchers if you complete both the initial and the follow up survey.

I am interested – what should I do next?

If you are interested in participating in this study, please follow the link below to the study site. You will be provided with further information to ensure that your decision and consent to participate is fully informed.

If you would like to complete the initial survey on site today, please speak with the student researchers.
