

VicHealth Active Club Grants – social media pack

We're pleased to announce the next round of VicHealth Active Club Grants will open on Tuesday 30 July 2019.

A total of around \$500,000 in funding is available for community sport clubs throughout Victoria. Clubs can apply for grants of up to \$3,000 or up to \$10,000 to provide more opportunities for Victorians to participate in sport, with a particular focus on people who otherwise wouldn't get these opportunities.

Building on momentum generated by our successful [This Girl Can – Victoria](#) campaign, the new funding will help local sport clubs across Victoria deliver more opportunities for women and girls to get active.

Clubs applying for Active Club Grants funding can also request an additional \$2,000 grant to promote *This Girl Can – Victoria* to encourage women in their local community to get active.

We're also keen to support clubs who are looking to provide more social, flexible and accessible sport programs for Victorians of all ages, genders and backgrounds as well as increased opportunities for people from disadvantaged communities to take part in sport.

Some example social media posts with images are below to help promote Active Club Grants on social media.
